

GREATER
MIAMI
CHAMBER
of COMMERCE

The Healthcare Committee helps empower Chamber members to provide the most appropriate health and wellness programs for their employees; supports community efforts to build healthcare programs necessary to improve the local workforce; and advance policy and legislation necessary to improve South Florida's position as a world-class place to live, work, and play.

Through advocacy, educational programing, outreach, and how-to guides for small businesses, the Healthcare Committee has advanced:

We are looking forward to many more years delivering value to our members and the Community of South Florida.
